Logan Field News

(No Changes) We still have unfinished work there. The new field is now being used a lot and it looks great. Some of the final parts of the work in the master plan are still not completed. The new walking track going around the park and the playground have not been done yet. Cost overruns on the lighting of the new field ran much higher than expected or planned for.

**The Whitaker Sq.
Update for 2016!**

(NEW UPDATE)

The Whitaker Sq. Memorial in the heart of Tatnuck Sq. was completely restored by TNA and rededicated to the city on Armed Forces Day, in May 1991. With the new road reconfiguration project its shape and size has changed dramatically. We have been working very hard to get it looking beautiful and respectful (Again). Our plan is now almost completed but we still have a (Lot) of work to do there. If you know what it looked like after the road construction changed it in such a great way, you can appreciate how it is looking right now. It will remain the nicest looking and best maintained memorial in the city. The Tatnuck Neighborhood Association Inc. (TNA) since 1988" getting things (Done)!
